It is very exciting to bring home a new addition to your family! Receive peace of mind knowing that we will provide a complete preventative medicine program for your new pet during their initial vaccine series!

Our puppy and kitten packages are well-pet programs. If your pet becomes ill, or requires additional medications or treatments during the course of the program, additional fees will apply.

In order to take advantage of our puppy and kitten packages, the entire package price must be paid in full on the first visit. This program price is non-refundable.
